SOFT THINKERS
(Christian Economics)

ALLEN W. DULLES

Neutrals and soft thinkers are often a greater danger than avowed communists. Soviet Russia spends about \$2 billion a year on "front" organizations and allied activities intended to conceal the real purpose of the communist conspiracy. They should not be allowed to get away with this hoax and deception any longer.

The Communist Party devotes much time and vast sums of money to these "front" organizations as a softening process to prepare for the day when they hope to take over.

Today it is not the open communist, the admitted follower of Marx and Lenin, who is likely to trip us up. It is the neutralists, the soft thinkers, the agrarian reformers, the welfare staters and collectivists who merely decry the methods but are blind to the aims of international communism.
